

Word 2007 Advanced

Course Aims

The aim of this course is to introduce you to more of Word's many features, including styles, complex headers and footers, outlining, tables and references, reviewing, advanced merge, templates, desktop publishing with word, macros and customisation.

Learning Outcomes

Upon completion of this course the participant will be able:

- ❖ Use manuals and on-line help to solve operation problems
- ❖ Use Styles effectively to speed up formatting tasks
- ❖ Apply paragraph numbering and outline levels to paragraphs
- ❖ Create Tables and references including Table of Contents, Indexes and Cross References
- ❖ Use word's tracking and comment features to electronically review a document
- ❖ Create and use templates which include stop codes and fields
- ❖ Create different Header and footers for odd, even and first pages
- ❖ Perform a mail merge specifying criteria for selecting certain records and using Word fields
- ❖ Combine text and graphics in a document, including ClipArt, WordArt and Watermarks
